MerriHealth Health and wellness Services

**Health and
wellness**
Part of your Merri Health network

We help people take control of their health and boost their overall wellbeing through services including nursing, exercise programs and education.

Health services

Dietetics

This service can provide you with healthy eating and nutritional advice for diet-related health problems and chronic health conditions. Information will be given on food choice to treat the diet-related issue.

Exercise physiology

This service supports you to stay active. We can help with an exercise assessment and provide recommendations tailored for you, health education and disease management. We can also help you learn how to exercise safely in settings such as local leisure centres and gyms.

Occupational therapy

Occupational Therapists work with you to promote safety and independence in your everyday life activities, such as showering, cooking, getting out and about in the community. They will talk to you about what is important to you and what you want to achieve by working together.

Physiotherapy

Physiotherapists can help you improve your movement and ability to get around. A physiotherapist can assess injuries or painful conditions and can then work with you to help you improve these issues and achieve your goals. Therapy may be in individual sessions and / or group sessions.

Chronic Pain Service

The Chronic Pain Service provides evidence-based, multidisciplinary care to help you to self-manage and recover from pain.

Podiatry

Podiatrists can work with you to prevent and treat foot, ankle and lower leg problems. They can provide you with information on preventing issues as well as advice on foot care and footwear.

Care coordinators

A care coordinator will help you to manage your chronic health conditions by assisting you to navigate the health system and support you to manage your health on your own.

Merri Health

Healthcare that moves with you

Merri Health creates healthy, connected communities through local health services for people at every age and stage of life.

We know that at different times, your health needs change. That's why we support you throughout life, with services spanning from children's health to aged care.

Health and Wellness Groups

Exercise groups

Our short-term exercise groups help to improve or maintain your level of independence and promote healthy lifestyle choices. This includes group water exercises, gym groups, chair aerobics and many more.

Education groups

Our short-term education groups will help improve or maintain your level of independence and promote healthy lifestyle choices. This includes Living Well with Diabetes group and a falls prevention group.

Healthy Eating Activity and Lifestyle Group

The Healthy Eating Activity and Lifestyle group known as HEAL™ is a lifestyle education program. It teaches and supports you to develop healthy eating and physical activity behaviours. The program runs for eight weeks and includes information about a healthy diet, general health and exercise tips and an exercise component.

Be Well, Live Well

Be Well Live Well is an 8 week group program suitable for people who have, or are at risk of, a chronic health condition who need support to change their lifestyle.

Living well programs

Living Well, Ageing Well

Living Well, Ageing Well supports eligible adults aged under 65 to connect with their community. We can work with you individually to develop your goals and to establish meaningful social connections through community activities and Merri Health programs. We also organise a range of events and groups that support healthy ageing. Visit our website for more information about our service and your eligibility.

Costs

Our services are either free or require a small fee to provide ongoing support for you. To find out whether there is a fee for a service, visit our website www.merrihealth.org.au and search for 'fees' or call 1300 637 744.

Health initiatives

Needle Syringe Program

The Needle Syringe Program provides clean needles, syringes, condoms and health advice for anyone in the community. It is provided at our Bell Street, Coburg and Glenlyon Road, Brunswick sites.

Healthy schools initiative

Merri Health develops collaborative partnerships with primary and secondary schools in Merri-bek to create a healthy, inclusive and safe school environment for students, staff and families.

We support schools to review their policies, environment, curriculum, engagement strategies, student-led projects, school culture and referral pathways to ensure they promote wellbeing and prevent poor health.

Healthy Sports Clubs

Merri Health partners with sports clubs in Merri-bek to create healthier environments for promoting wellbeing. The initiative adopts a whole club approach, enhancing existing health efforts through ongoing local support and resources to drive continuous improvement.

Merri Health is an inclusive service provider. We are committed to providing safe and high quality services that respect the needs, wants and aspirations of all people.
